LIBRARY EXPANSION
GOES TO THE POLLS

ON THE BALLOT:

LIBRARY EXPANSION GOES TO THE POLLS

REFERENDUM IN A NUTSHELL

The Library will take its project to the voters this spring.

- **Date:** March 17th, 2026 (or earlier with early or mail-in voting)
- **Purpose:** The Library has outgrown its home and we need to expand.
- **Background:** After years of planning, we have a strong design that will meet the needs of the community for the fewest dollars possible.
- **Funding:** The Library has committed or identified funding for 15% of the \$10,500,000 cost. There will be a referendum for the remaining \$8,925,000.
- **Impact:** This project will increase your property taxes by less than 1% – \$5.33/month for a \$300,000 home.

A GROWING LIBRARY NEEDS TO GROW!

When we opened the doors to our current building in 2010, library usage immediately jumped by over 30%, as the community enjoyed the larger space, dedicated children's area, new community and study rooms, and more materials than our old building could have ever held.

As the community grew, the Library grew with it, offering creative programs for all ages; providing new material types to meet changing needs, such as Roku sticks, Vox books, board games, and educational kits; and rearranging our furniture and shelving as needed. We have done the most we can do with the space that we have, but now we are simply overcrowded:

- Our children's area is often crowded with children and their caregivers, making it difficult for them to comfortably use the space and access materials and activities.
- Our community room is too small for our most popular programs, forcing us to either limit participation or have patrons standing outside the doors, struggling to see and hear.
- We only have one study room and one community room, forcing us to regularly turn individuals and community groups away.
- Our shelves are full, and we can only make room for new materials by removing other items long before we would prefer to do so.

AN EXPANDED LIBRARY

We are excited to share that, after years of planning and preparation, we have a library design that will give the community more free space to gather, work, and study; more programs and events for children, families, teens, and adults, and more space to house books, movies, and other materials.

NEW CHILDREN'S LIBRARY & DEDICATED TEEN SPACE

The largest and most prominent part of the expansion will be a new 7200 sq. ft. Children's Library with a dedicated Teen Room. The children's area is the most heavily used, and most crowded area, in our existing Library. The new space will have more room for children to read and participate in activities, and a glass wall will separate this area from the main body of the Library to help reduce sound in the rest of the Library. This space will take up a new wing located north of the existing children's area.

Libraries across the country have found that making a dedicated space especially for teens makes it far more likely that teens will use the Library. We want our community's teens to know that we welcome them and that we have a friendly space for them to use, so we have designed a Teen Room just for them.

LARGE, DIVIDABLE COMMUNITY ROOM

The Edgar Room, our only community room and programming space, is booked daily for library programs and public use, often hosting multiple events in a single day. The addition of a significantly larger community room that can be subdivided into two rooms, will double the number of groups we can serve.

PATIO & OUTDOOR PROGRAM SPACE

One lesson we learned during the COVID-19 pandemic is that our patrons really enjoy outdoor programming during warm weather months, but the Library doesn't have shade to offer protection from the sun during these events. A covered outdoor patio will provide space for programs, concerts, and even studying or working outdoors.

CHANGES TO THE EXISTING SPACE

Moving children, teens, programs, and meetings into the expanded library will allow us to rearrange our current space to better meet community needs:

- The current Edgar Community Room will become a free gathering space for informal meetings and visits, with food and drink allowed.
- The current teen area will become a new study room.
- The adult collection and work areas will expand into the current children’s areas.

A THOUGHTFUL PLAN

This is not an impulsive decision, but one driven by data: we are out of space and we are struggling to provide for the community's library needs. Once we realized this, library staff and trustees took several years to create a plan that would meet the needs and yet be as cost efficient as possible:

- We worked with a library consultant, who developed a requirements plan based on input from staff, trustees, and public surveys.
- We hired an architect who specializes in public libraries to create a design and provide cost estimates.
- We hired a financial consultant to create a plan that would allow us to not only build the expansion, but also maintain the facility and continue to provide library programs and services.

STEWARDS OF YOUR TAX DOLLARS

Library staff and trustees never lose sight of the fact that we are stewards of your tax dollars and we must meet the needs of the community in the most cost effective way possible. The Library has been adding countless programs and services while barely changing what you pay in property taxes! Check out this real example from a home in Mahomet:

Year	Net Taxable Value*	Total Tax Paid	Library Tax	Schools Tax	Village Tax
2021	\$68,340	\$5,506	\$209	\$3,161	\$578
2022	\$72,650	\$5,815	\$215	\$3,359	\$603
2023	\$79,330	\$6,279	\$211	\$3,676	\$644
2024	\$87,860	\$6,815	\$219	\$4,068	\$671
% Increase 2021-2024	28.56%	23.78%	4.78%	28.69%	16.09%

*Net taxable value is approximately 1/3 of the full home value

Note: to find these numbers for your own property, look at your tax bill or visit the Champaign County Clerk property tax lookup site.

Library Tax Rate: The overall tax rate levied by the Library on Mahomet property dropped from 0.3061 in 2021 to 0.2494 in 2024. That is a reduction of 18.5%! For the property listed above, the increase in actual tax paid to the Library came almost entirely from the 28.5% increase in property value, not from the Library raising tax rates.

Refinancing Savings: In 2019, the Library Board went to considerable effort to refinance the bonds on the existing building. This work did not bring any more income to the library, but it did save taxpayers \$230,000.

Savings Toward Expansion: Despite continually increasing programs and services, the Library has set aside some funds every year to be used on this expansion project.

LET’S TALK DOLLARS

PROJECT COST

The total cost of the library expansion and near-term repairs and maintenance for the existing facility is estimated to be \$10,500,000. The Board of Trustees has committed to covering the first 15% (\$1,625,000) through a combination of:

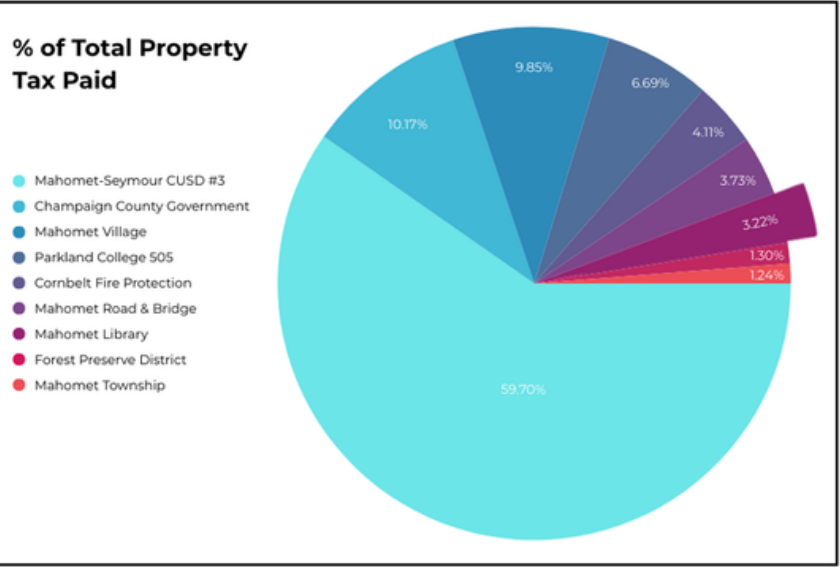

- Library reserves that have been built up for this project since 2010,
- Voluntary donations from the community, and
- Grants.

The remainder of the costs depend on passing a bond referendum for \$8,925,000 on March 17, 2026.

IMPACT ON YOUR PROPERTY TAXES

This project will increase your total property tax bill by less than 1%.

Less than 1%? How can it have so little impact? It’s simple: the library represents a small portion of your property tax bill, so our request will have a minimal effect on your tax bill.

Payments on the new bonds will begin immediately after the retirement of construction bonds for the current building, minimizing the increase in property taxes. The current estimated impact on property taxes is \$5.33 per month for a \$300,000 house.

HOME VALUE	ANNUAL INCREASE	MONTHLY
\$100,000	\$18.61	\$1.55/month
\$200,000	\$41.31	\$3.44/month
\$300,000	\$64.01	\$5.33/month
\$400,000	\$86.71	\$7.23/month
\$500,000	\$109.41	\$9.12/month

WHAT IF THE REFERENDUM DOESN'T PASS?
While we truly believe this expansion is in the best interests of the community, if we are not able to move forward we will continue as we have been doing, providing the best library programming, services, and materials that we can in our limited space.

- Unfortunately, this means we will continue to:
- Turn children and families away from programs due to lack of space,
 - Lack room for all the materials we need as the population grows,
 - Have limited availability of meeting space for community groups,
 - Lack sufficient quiet work/study space, and
 - Have an overcrowded children's area, especially before and after programs.

The photos below were taken during a live animal program in summer of 2024. The room was packed, and the little girl in pink (top photo) found herself on the outside, missing it. We can only imagine how she felt.

Throughout our planning, we have kept this image in our minds. Children and teens want to be in our library. We want to be sure we have the space to welcome them. With this expansion, we can make that happen.

For more information about the expansion project, please visit the expansion page on our website: <https://mahometpubliclibrary.org/expansion-project/>

Families stand outside the Edgar Room during a program, trying to hear and see. Inside the Edgar Room, every bit of floor space is being used.

Students from the Gies College of Business at UIUC performed a benchmark study for the Library, comparing your library with others that serve communities of similar size. We're proud to show you that, even with all the programs and services we provide, we have been able to do it efficiently! We take the responsibility of managing your money seriously.

EVERYTHING MAHOMET

A NEW WAY TO SHARE INFORMATION WITH THE COMMUNITY

Since the loss of the Mahomet Citizen newspaper, community leaders have often heard “there is no place to go to find out what’s going on in Mahomet.” As a result, residents too often have to turn to social media for their answers to questions. In 2024, Library Director John Howard began conversations with former Village President Sean Widener and new Village President Jason Tompkins. They wondered if there was a better way to provide accurate, unbiased information to the community, and if the Library could be part of the solution.

These conversations led to a consensus for the Library, Village, and Chamber of Commerce to work together to create a community website called EverythingMahomet.com. In September, the Library hired Kim Arnold of Mahomet to write articles and manage content on the site. (Many know Kim as the writer of the Mahomet Area Living magazine.) As of the time this was written, the website is expected to go live on January 2, 2026.

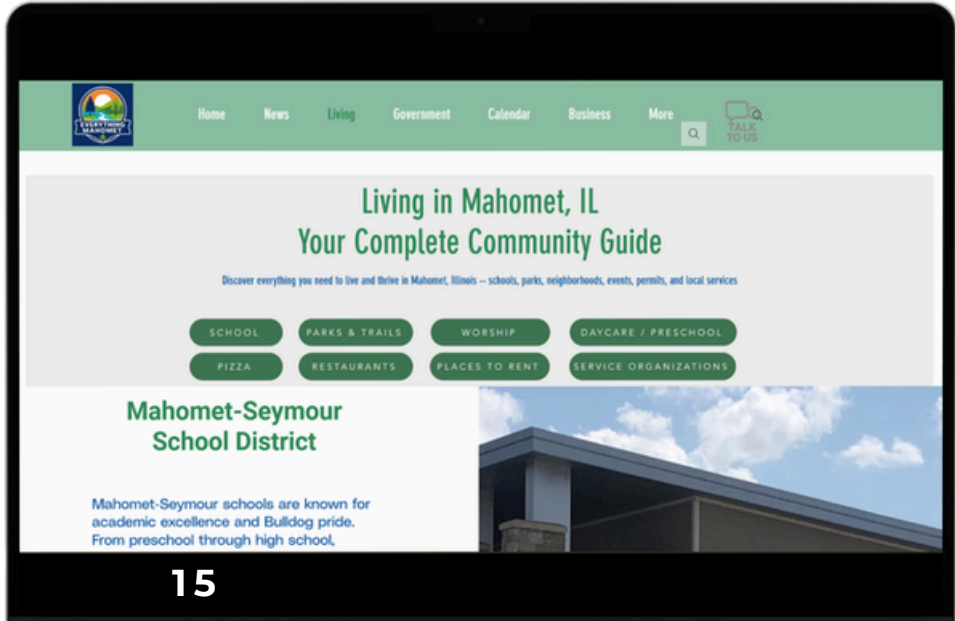

Everything Mahomet is intended to serve as a “one-stop-shop” for community information needs with applicable links to other Mahomet businesses and institutions. It will feature weekly articles of interest and a full community calendar. Unlike a social media page, the website will not include comments on individual articles. The site is not ad-supported. It is completely funded by the Library, Village, and Chamber of Commerce. However, there will be opportunities for feedback and interaction, and the website is expected to grow and develop as the community shares what they want to see included on the site.

“We want Everything Mahomet to be pro-Mahomet, and to reflect the needs of our community” says Library Director John Howard. “As we try to decide what to include, our driving question will be ‘what information are Mahomet residents looking for?’” He emphasized that the comprehensive community calendar will be a central feature of the website, and that the site will depend on local individuals to submit content for the calendar.

Some additional features of the website include:

- Ask Kim, a monthly column where residents submit questions, and Kim Arnold researches and answers those questions. This is based in part on the popular “Ask Kathy” column found Fridays in the News Gazette.
- Garage sale listings
- A complete business directory of the Mahomet area, provided by the Chamber of Commerce
- A community guide with listings for churches, daycares, places to eat, places to rent and more

Howard noted that the website that launches January 2nd will be far from a finished product. More content will be added on a regular basis, based on community feedback. “Be patient with us” he added. “We won’t literally have EVERYTHING in Mahomet at first, but with your suggestions, we plan to create a site that really fills your needs.”

DID YOU KNOW?

With prices rising on everything, your library is working hard to lower any cost barriers for our community. In an effort to reduce frustration and challenges during the Covid-19 pandemic in 2020, we temporarily suspended overdue fines. This temporary change ended up becoming permanent, and **we officially went fine free in April of 2021!** Please Note: There are two exceptions to the rule - hotspots and Roku streaming sticks both have a \$1.00/day overdue fine. Patrons will still pay for lost or damaged items.

ROKU STREAMING STICKS

Each Roku Streaming Stick provides access to one of our paid streaming services (Apple TV, BritBox, Disney+, Hallmark+, HBO Max, Hulu, Netflix, Paramount+, Peacock, PrimeVideo, or Shudder), PBS Kids, the Roku Channel, and Movies Anywhere. Streaming sticks can be checked out by anyone who has a Mahomet Library card.

LAPTOP COMPUTERS

The Library has two laptops, with Microsoft Office installed, available for Mahomet Library patrons to check out.

VOX/WONDERBOOKS

Follow along as the book reads to you! Wonderbooks are print books that have a built-in audio player. The players have two settings - reading and learning modes. Listen to the books with or without headphones. Both picture book and chapter book titles are available.

TRACE & WRITE BOARD

Practice writing with our Trace & Write Alphabet Center!

Explore the magic of the microscopic world with 20 slides packed with amazing images of bugs, plants, and more!

**MEGAN'S PICK:
AT FIRST SPITE**

This book is delightfully odd. What starts out as a romcom soon develops into a poignant, sweet, & spicy story about two sad, beautifully flawed characters who care deeply for each other. But Dade never lets the heaviness outweigh the joy inherent to the romance genre. Dr. Matthew Vine is the most compassionate hero in contemporary romance (while still giving grump. Trust me, it works). Body positivity. Mental health representation.

Find it on our fiction shelves and in the Hoopla app.

**JOHN'S PICK:
DEVIL IN THE WHITE CITY**

Nonfiction that reads like an exciting novel. The 1893 Chicago Worlds Fair is a fascinating story. Add one of America's first serial killers to the mix, and you have a great story.

Find it on our nonfiction shelves and in the Libby and CloudLibrary apps.

**GRETCHEN'S PICK:
ITALIAN SHOES**

This book is a wintry tale of isolation, acceptance & forgiveness, and finding friendship/love in unique circumstances.

CHAT WITH LIBRARY DIRECTOR JOHN HOWARD

Doing two major projects at the Library at once? The last few months have been among the busiest of my career. But both projects say something about what the Mahomet Public Library is all about.

Our Library Expansion Project goes to the ballot on March 17th.

I love it when people ask me about this project. Even when their concern is about rising property taxes. Property values, and therefore property taxes, have risen quite a lot in the last several years. Believe me, the Board and I are very aware of this fact. But here is what I tell people when asked:

- Rather than asking taxpayers to fund the entire project, our Board has committed to finding funds for the first 15% of the project from other sources, including savings we have been putting aside for years.
- If you look at page 4, you will see that from FY2021-FY2024, the library tax on an actual house in Mahomet went up only 4.8%, compared to an increase of 23.8% overall.
- We look for little ways to save taxpayers money. Last year, we found that by switching to a different bank for our checking account, we could bring in almost \$2,200 more in interest each year. This lets us improve services without asking for more taxes.
- By expanding now, we begin payments for our new bonds right after we retire the existing bonds. This limits the disruption on taxpayers.
- In the end, we will get a beautiful, magical children's library that will be a source of pride for our community, more than double our space for programs and community meetings, add space for teens, make the Library quieter, and go from one to FIVE study rooms.

And this project will do all of this while increasing property taxes less than 1%.

I can't and won't tell you how to vote this March. But I hope you will vote, and will consider the list above when making your decision.

Meanwhile, EverythingMahomet.com is now live!

On page 15, you saw that the Library is managing a new website intended to give Mahomet residents a central place to find accurate, helpful information about our community. This is a vision I have had for the community for several years, and I am grateful to the Village and the Chamber for helping make it happen in 2026. There are many ways that the Library can provide information to our community. I hope that you find this one useful.

What do these two projects have in common?

I think they both show that we are always looking for ways to serve our community better. We are never satisfied. We try our best to provide our community with a library that truly serves you, while being careful with taxpayer dollars. Talk to me if you want to learn more or have ideas. My door is always open.

STAFF PICKS

**JENN'S PICK:
THE BRIAR CLUB**

The Briar Club is a historical fiction set during the 1950's. Briarwood House is a boarding house for women. The book opens with a murder and each chapter of the book highlights the life and character of the residents. Quinn creates wonderful characters who quickly become like good friends. This book has it all - suspenseful plotline, well-crafted characters, and a satisfying ending.

Find it on our fiction shelves and in the Libby, CloudLibrary, and Hoopla apps.

**LINDA'S PICK:
THE BORROWED LIFE OF
FREDERICK FIFE**

A heartwarming novel about an elderly man down on his luck falling into good graces by taking over the identity of a curmudgeon at a local retirement home. What ensues is a change in the hearts of many, and a story about love triumphing over grief. You'll fall in love with Fred!

Find it on our fiction shelves, and in the Libby, CloudLibrary and Hoopla apps.

**STAFF PICK:
MARIA**

This wonderfully written historical fiction will open your eyes to a whole new side of Maria Von Trapp that you may have not known before. Follow Fran as she frequently meets with Maria, unraveling her true past, both good and bad. If you have any sentimental connections to the "Sound of Music" musical, you are in for a real treat.

Find it on our fiction shelves.
